“ Uncle Ken, I miss you dearly! There was never a time I said Uncle Ken without saying Auntie Connie in the same sentence. You always made me special and we shared a closeness no matter how many days or miles we may have been apart...you are an angel and I love so much. Uncle Ken, I see your smile, I hear your laughter, and I truly cherish our special memories when you and Auntie Connie traveled to Hawaii for my wedding. We love you so much...With love, Sabrina and Duron!

“ My life feels different without Uncle Ken in it...like something important is missing but I'm not sure what it is that's missing. He was across the country since my late 20s and I didn't see him every few years. But I still felt his presence in my life because I remember him as a part of my life since I was kindergarten age, and I remember him fondly because he was Cliff Huxtable like with a fondness for a few stiff cocktails while shooting the breeze with the grown ups. He wasn't a distant uncle I barely knew or barely remember. He was an uncle I remember well from kindergarten age because growing up I spent time with him several times at his and Aunt Connie's home and at my home. He was like a distant father, not like an absent father, or a father that shows up and goes through the motions before leaving again. He was like a father at large, a father figure I had a feeling was there for me if and when I reached out to him. I regret I didn't reach out to him more.

“ To my family members,

May our Lord give you comfort and assurance that our uncle has reached glory and is with Him. Listen to this song and be thankful for the life and legacy of our uncle.
