“ Dr. Massenberg, you have been one of my biggest supporters from day 1. Its been 15 years since I walked into your office on Grand River and you took me under your wings. You have guided me through so much professionally, academically and personally. I looked forward to our lunch dates and our chats over the phone. Continue to keep me under your wings. You are already missed so much! Tiffany

“ Dr. Massenberg,

I am still in disbelief. Your kind spirit and gentle voice will be missed. We didn't talk much but I always enjoyed our conversations. You were always professional and personable at the same time. That's a rare quality.

I am praying for God to provide your family with Peace and Comfort during this difficult time. Someone once told me, when you lose someone you love, you gain an angel you know. I know you'll be watching over your family.

Dr. Massenberg, I still have moments of disbelief that you have made your transition. I am forever grateful that we met and for you believing in me. We became friends over the years and I will always miss our late evening phone calls and the sound of your voice. I'm praying for peace and comfort for your family.

God Bless.

Dr. Massenberg, at last I found that for which I was looking, a forever home. I said that the day I met you. You are someone who is impossible to forget and your memory will be forged in my mind until we meet again some day. Your kindness, patience, and caring was so remarkable that it would be impossible to find in another human being. To your family I pray for strength and the ability to remember all of the good memories that you brought to them. You were strong, yet gentle in the manner in which you cared for everyone around you. After thirty years I can honestly say I learned more from you professionally, and as a role model, than anyone I have met. I am so happy that this link was shared for I got a chance to see your smiling face again in pictures. I was blessed to have known you.

Dr. Massenberg will be truly missed. Thanks to your niece, Tanya, you became a part of my family's life 18 years ago. You were truly a blessing, especially to that then three year old boy who's now a 21 year old man in college on a full ride academic scholarship (majoring in Chemistry). You were my mentor and a visionary. You will forever be in our hearts. The Pope family
