“ *My Sister. My Friend. My Girl! Words can't be spoken or written to how I'm feeling. Just last week we were talking about the simplest of things like birthday plans and our summer plans, car trouble, and this week I'm confused. Confused on why it was you but knowing your smiling down and encouraging us as you always did. You were one of my closest friend that I could go to for anything, everything, or nothing but a response. You are still here with me always I know this, but it will be hard not getting a message from you when needed. I love you deeply and appreciate every memory and moment we spent together. My water sign sister that loved R and B and being in our feels together! You are a ride or die and you left me too soon but with good memories and love! So thank you friend! It's so many insiders and question I have so we will surely be chatting soon! Love you babe! ❤️*

I love you forever my sweet beautiful child, rest well I'm longer scared to die I know you will be waiting for me with open arms and your beautiful smile. I love you and need you but God knows best
