“ I met Elissa as a new hire within the Career Education Center at the University of Detroit Mercy. And, as stated by Edward Tracy, Elissa was passionate about her work, exhibiting extensive knowledge in the field of technology. Elissa also reached out to help others whenever needed. Please know that I am praying for your family. “May God continue to bless and comfort you and your family during this difficult period; please accept my sincere condolences.”

“ I had the privilege of first hiring Elissa into the University before she moved over to another department. I was impressed by her skills and abilities from the very beginning. She was very good with technology but even better in working with people. She helped many when we worked together and she went on to touch the lives of so many others through her work in Career Education. So sorry for the loss but know she truly made a difference in the lives of many through her work.
