“ *My deepest sympathies to the family of Francine Gee. Francine was a wonderful person and nurse. A person that you could say was called to be a nurse. She was so compassionate, calm and thorough with every patient. We will miss Francine's smile, her calm demeanor and ability to always be caring and optimistic. She was an Angel on this earth. She will be greatly missed.*

“*Francine was a wonderful nurse. She was caring, peaceful and calm to all her patients worried about their upcoming surgery. She was a rock in the presurgical screening team - someone you could always depend on. When she covered as the nurse for our open heart surgery patients, she was thorough, caring and professional despite only having to do it intermittently, a day or a week at a time. Her soft caring voice and expertise in solving multiple problems, situations, concerns of preoperative patients meant the world to each one of them. She was a great colleague and friend.*

She was obviously a woman of faith and really lived her life that way. You could tell about the love of her family and in her family by her stories. Francine truly made the world a better place to those of us lucky enough to work with her.

I pray that you, her family, can feel her love each day reaching across from Heaven to you as well as God's love and support.

Darling, you are and were the love of my life. Together we shared 28 - 29 years together. From the first cancer diagnosis in 1994, until the last, when you took your hand away as I held it at 01:40 a.m. on 12/02/2023, as you made your transition, I always loved you. I loved you from the start and will always love the memory of you, the memory of us and the love of us. When we reunite, my darling, understand, my love for you remains forever. Love from your "Boss Baby," and your "happily ever after," Ramondo
