“ I would like to give my Condolences to the Wells Family. To my dear childhood since I have known since the age of 4. It doesn't seem real to know that you have transition. It is like a bad dream I'm trying to wake up from. You were my Best Friend, My Sister, my Confidant. I could write a book on our Life growing up in Southwest Detroit known as Delray. Only if walls could talk. We may not have seen each other everyday we talked about getting together to view all those pictures she saved from our teens to Adulthood. They always. say a picture is worth a thousand words. Sis, You will be truly missed . I, am going to iss those 3 hour phone calls.

“ I would like to extend my condolences to the family of Karen Wells. Karen, was like an Aunt/ second mom to me. Actually she named me. If someone were to ask me how would you describe her, I would tell them, she reminds me of a Peach flower. Most people may ask why that? Peach flowers are symbolic of sweetness, sincerity, genuineness, appreciation, and gratitude. Karen represented all those traits. If you notice her color scheme in her home, you would see bold bright colors that would light up the room like her personality. Most people know that Karen love to cook. I remember when she bought me my first hand mixer over 41 yrs. ago which I still have today. Alethea and I decided to give her mom a surprise birthday party and I decided to make a cheesecake using that mixer to serve at the party. Karen said in a joking way, I will show you how to elevate that cheesecake with a secret ingredient and of course that suggestion make my cake a hit. Another fun fact you may not know is that she was adventurous. I remember the time she learned how to Belly dance. She would practice in the basement with her circular cymbals clipped to her fingers and I believe she wore a middle eastern outfit. I have to admit she was quite good at it.

Mrs. Karen Wells, you will truly be missed!

Love, Carol A.K.A (Dorothea)
