“ *My personal and deepest condolences go out to Mark's family during these difficult times. He will be sorely missed by our Henkel Engineering team. I will miss Mark, and not just as an irreplaceable part of a fantastic Engineering team, but even more as a friend within our team. A person who was always supportive, especially when identifying team members who needed moral support. We spent amazing moments together. He himself, his character and his way of thinking were an enrichment for me personally. I will remember him fondly. Frank*

“ First, my heart goes out to Mark’s family. He was always talking and excited about family at the house, meals he was cooking for everyone, wine and Costco runs, pool parties, and trips and all the girls and extended family too. While blood family was his #1, Henkel was his family too. :) He was an amazing leader for everyone at work and all the memories our team had with him are truly special. I know his impact on our personal and professional lives will forever be cherished. Mark was the kind of person that seemed to have unlimited work ethic and friendship to give and he brought everyone together to tackle any situation and also have so much fun! He was the best listener, made us strive to work harder, and be healthier and take risks to be happier. He taught us to accept the “bad” with the good in people to appreciate people for their whole selves. He genuinely cared about all of us and we genuinely loved him back. I will miss him every day.

“ To those of you who knew Mark, my feelings will come as no surprise. He was a man who was always there when needed, willing to listen and help in anyway possible! He helped me through many ups and downs as a Manager/co-worker/friend and always was a positive influence in my life. He was a man who loved his family and made everyone around him a better person.
